

Portlog — Nominations User Manual

This guide walks through the full lifecycle of a **Nomination** in Portlog: from initial creation through confirmation, progress tracking, and completion (or cancellation). Both roles — **OPS** and **ADM** — have full access to all steps described here.

Table of Contents

1. What is a Nomination?
 2. Nomination Lifecycle
 3. Viewing the Nominations List
 4. Creating a Nomination
 5. Viewing a Nomination
 6. Editing a Nomination
 7. Managing the Client List

 10. Answering an ETA
 11. Sending Emails
 12. Viewing the Messages Log
 13. Status History Audit Trail
-

1. What is a Nomination?

A **Nomination** represents a vessel's port call managed by the agency. It is the central record that links:

- The **vessel** (ship particulars) and its voyage details
- The **ports** involved (operating port, pier, last port, next port, discharge port)
- The **parties** involved (owners, charterers, broker, master, inspectors)
- The **cargo** being loaded or discharged (parcels)
- The **email recipients** for all outbound communications
- The **PEDR** (Port Entry/Departure Record), SH-xx port documents, and Statement of Facts

Every nomination is assigned a unique **SN number** (e.g., 5) generated automatically on creation, used as SN/OT reference.

2. Nomination Lifecycle

A nomination moves through the following states. Only the transitions shown are allowed.

Status badges are color-coded throughout the app:

Status	Color
Draft	Gray
Confirmed	Blue
In Progress	Orange/Amber
Completed	Green
Cancelled	Red

3. Viewing the Nominations List

Navigate to **Nominations** in the top nav bar to reach the list page.

2	002/MVD	MV Patagonia Trader HPAC	MVD	2026-05-15	IN PROGRESS	2026-06-10

4 active nominations (of 10 total)

<1>

Columns

Column	Description
SN/OT	Auto-generated number (e.g., 5)
Voyage Number	Voyage identifier (e.g., 005/NPA)
Vessel	Vessel name and call sign
Op Port	Operating port code
Date Nominated	Nomination date
Status	Color-coded badge
Created At	Record creation date

Filtering and Search

The filter bar sits directly below the page title:

- **Status** — filter by one status (All statuses / Draft / Confirmed / In Progress / Completed / Cancelled)
- **Port** — filter by operating port
- **Vessel** — filter by ship name
- **Date from / Date to** — filter by nomination date range
- **Search** — free-text match on voyage number, vessel name, or SN reference

"Active nominations only (In Progress + Confirmed)" toggle (top-right, on by default) — hides COMPLETED, CANCELLED, and DRAFT records. Turn it off to see all 10 records.

Click **Clear filters** to reset all filters at once.

Pagination appears at the bottom right when there are more results than fit on one page.

4. Creating a Nomination

Click **New Nomination** (blue button, top-right of the list page) to open the create form.

Disponent Owner	Name	Voy.	Ref. No.	Proforma	Broker
Technical Operator	Name	Voy.	Ref. No.	Proforma	Broker

Required Fields

Field	Notes
Ship's Name	Select from the vessel master list. Click + to add AIS lookup.
Nom. Date	Nomination date (required).
Type	Defaults to Full Agency .

Optional Fields — Voyage & Ports

Field	Notes
Number	Auto-assigned (shown as "Auto" until saved).
Branch	Branch managing this nomination. Unlocks the Branch Documents panel.
Lay Days	From/To date range for lay days.
Nom. Reply	Date nomination was acknowledged.
Oper. Port	Primary operating port. Pier becomes available once Oper. Port is selected.
Pier	Specific berth. Requires Oper. Port first.
External Port	Alternate external port reference.
Last Port	Previous port of call.
Next Port	Next port after this call.
E.T.A.	Estimated Time of Arrival.

Optional Fields — People

Field	Notes
M.I.C.	MIC officer code.
Boarding	Boarding clerk name.
Mobile on Board	Vessel contact phone.
Captain	Vessel master's name.
Inspector	Port inspector name.
Reference N°	Free-text reference.

Subject

Optional email subject template. Click **Generate** to auto-fill from nomination data.

Clients Table

The Clients table is pre-populated with default party types (Head Owner, Charterer, Disponent Owner, etc.). Fill in names and references for each relevant party. You can add extra rows or remove unused ones.

Submitting

Scroll to the bottom and click **Create Nomination**. The nomination is created in **DRAFT** status and assigned its SN number. You are redirected to the detail page.

5. Viewing a Nomination

Click any row in the nominations list to open the detail page.

Cargo Update

Statement of Facts

NOR

The buttons shown depend on current status:

Status	Buttons shown
Draft	Confirm, Cancel
Confirmed	Start, Cancel
In Progress	Complete, Cancel
Completed	*(none)*
Cancelled	*(none)*

Click the primary action button (**Confirm**, **Start**, or **Complete**) to advance the nomination — no confirmation dialog is shown.

Cancelling

Click **Cancel** at any active status. A modal appears:

The screenshot shows the Portlog Nominations interface. A modal dialog titled "Cancel Nomination" is open, prompting the user to provide a reason for cancellation. The background form displays nomination details for "Nueva Palmira" and a list of parcels. The modal has a close button (X) in the top right corner.

1. Enter the **reason for cancellation** in the text area (required — cannot be left blank).
2. Click **Confirm Cancellation** to proceed — or **Back** to return without cancelling.

The reason is permanently stored in the Status History audit trail.

9. Managing Cargo (Parcels)

The **Parcels** section in the Nomination Details form holds the cargo rows. Each row represents one cargo lot.

Inline Editing (on the nomination form)

Each parcel row has four columns: **Product**, **Quantity**, **Unit**, and **Operation**. Click **Add row** at the bottom of the Parcels section to add a new cargo lot, or click the red **×** to remove one.

Cargo Update Modal

For in-progress cargo figures (completion times, quantities remaining, loading rates), use the **Cargo Update** action in the right rail:

Statement of Facts

NOR

Each timeline node records:

- **From status** → **To status** (color-coded badges)
- **User** who made the change
- **Date/time** of the transition (UTC)
- **Reason** (shown for CANCELLED transitions)

Entries are sorted oldest-first. This log is permanent — it cannot be edited or deleted.

Quick Reference
